PROJECTS

Cura – Doctor Appointment Booking System | MERN Stack, Vite, Axios, JWT, Cloudinary

Aug 2025

- Built a **secure, role-based platform** for Admin, Doctor, and User to efficiently manage appointments.
- Enabled **profile management**, image uploads, and online payments for seamless user experience.
- Designed a **responsive, interactive interface** using React, Vite, Tailwind CSS, and Toast notifications.
- Integrated with **MongoDB Atlas** for robust data storage and retrieval.

Sentence Completion using Generative AI | Python, GPT-2, Transformers

Apr 2025

- Built an **AI-powered sentence completion tool** using **Python** and **Hugging Face Transformers (GPT-2)**.
- Implemented **tokenization, model I/O, and generation parameters** fully from scratch with user-controlled **temperature** and **repetition penalty**.
- Developed a **real-time interactive interface** in **Colab** using **ipywidgets** for seamless input and output.

Shauryan – Banking Website | React, Node.js, Appwrite, Plaid, Dwolla

Sept 2024 – Apr 2025

- Developed a **digital banking platform** providing secure and seamless financial services.
- Implemented **end-to-end authentication** and user account management via Appwrite backend.
- Integrated **Plaid and Dwolla APIs** for smooth and reliable financial transactions.
- Built an **admin dashboard** to monitor login activity, transaction history, and user engagement.

ACHIEVEMENTS

- Selected as one of 4 teams from India to participate in Xbox Game Camp Asia, organized by Xbox.
- As a member of the IoT Club at VIT Bhopal, I helped plan events, manage arrangements, and support smooth execution.

CERTIFICATIONS

- Cloud Computing (NPTEL, May 2024)
- SmartBridge FullStack Developer MERN (Apr 2025)
- IBM Gen AI using IBM Watsonx (Apr 2025)
- Marketing Analytics (NPTEL, May 2025)
